

Announcement of a Total Maximum Daily Load (TMDL) study to restore water quality in the dissolved oxygen (DO) impaired waters of the Northwest River.

**PURPOSE OF NOTICE:** The Virginia Department of Environmental Quality (DEQ) and the Virginia Department of Conservation and Recreation (DCR) announce a Public Meeting regarding the Northwest River TMDL Study.

**PUBLIC MEETING:**

Thursday, October 21, 2010

6:00 p.m.

Hampton Roads Planning District, The Regional Building

723 Woodlake Drive, Chesapeake, VA 23320

**MEETING DESCRIPTION:** This is the first public meeting for this project. The purpose of this meeting is to discuss the study to restore water quality in the Northwest River watershed.

**DESCRIPTION OF STUDY:** Portions of the Northwest River have been identified as impaired in the Clean Water Act §303(d) list due to violations of the State's water quality standard for dissolved oxygen. The Northwest River watershed is located within the City of Chesapeake. Below are descriptions of the impaired segments that will be addressed in this study:

Stream Name	Impairments	Area	Upstream Limit	Downstream Limit
Northwest River	Aquatic Life use Impairment due to Dissolved Oxygen	16.37 square miles	From headwaters near Wallaceton at River Mile 22.15	VA/NC state line

During this study, DEQ will develop a total maximum daily load (TMDL) for the impaired Northwest River. A TMDL is the total amount of a pollutant a water body can receive and still meet water quality standards. To restore water quality, pollutant levels have to be reduced to the TMDL allocated amount.

**HOW TO COMMENT:** The public comment period on the draft TMDL Report will extend from October 21, 2010 to November 22, 2010. DEQ accepts written comments by e-mail, fax, or postal mail. Written comments should include the name, address, and telephone number of the person commenting, and be received by DEQ during the comment period. Please send all comments to the contact listed below.

**CONTACT FOR ADDITIONAL INFORMATION:**

Name: Jennifer Howell
